Viva Topics is an essential text for the MRCGP oral exams. Like the other Workbooks, Viva Topics is exam specific and will enable the candidate to focus on the essential elements of the exam. The book consists of an analysis and distillation of past viva questions and is set out in topic format. A revision table, called the Candidates Grid, highlights the essential and associated elements of each topic. Viva Topics is an essential companion for the viva courses run by Ese Stacey, but may also be used as a standalone revision aid.
